

McKinley Peptides

Tri-Lash Pro™

INCI Name: Biotinoyl Tripeptide-1 (and) Myristoyl Hexapeptide-16 (and) Myristoyl Pentapeptide-17 (and) Myristoyl Tetrapeptide-12 (and) Water (and) Glycerin (and) Panthenol

Functionality

Multi-peptide solution that promotes eyelash growth
Increase lash growth by over 28% in 14 days

MacPeptide™ AH8

INCI Name: Acetyl Hexapeptide-8, Caprylyl Glycol, Water

Anti-wrinkle peptide solution that improves skin elasticity by restoring the skin's natural water barrier

Reduces wrinkle depth by 30% after 30 days compared to 10% reduction in control group

MacPeptide™ 3000

INCI Name: Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Butylene Glycol, Glycerin, Carbomer, Polysorbate 20, Water, Caprylyl Glycol, Ethylhexylglycerin

Anti-wrinkle peptide solution that promotes collagen production, tightening the skin and reducing wrinkles

Promotes collagen synthesis to tighten the skin, fade wrinkles, moisturize and repair the skin deeply

MacPeptide™ Syn 6

INCI Name: Palmitoyl Tripeptide-38, Hydroxypropyl Cyclodextrin, Water, Caprylyl Glycol & Ethylhexylglycerin, Glycerin, Trehalose

Anti-wrinkle peptide solution that helps with wound recovery, smoothing lines and reducing wrinkles

Promotes synthesis of collagen, fibronectin, laminin and hyaluronic acid smoothing wrinkles and moisturizing the skin

MacPeptide™ Copper

INCI Name: Copper Tripeptide-1 (and) Pentylene Glycol (and) 1,2-Hexanediol (and) Water

Copper peptide solution has hair and skin benefits: promotes expression of hair growth factor and removes oversized proteins and older cells

Promotes hair growth and skin wrinkle repair
