WWW.MCKINLEYRESOURCES.COM

PRODUCT NAME	CAS NUMBER	DESCRIPTION
Hydrocortisone Base USP	50-23-7	Corticosteroid hormone used to reduce inflammation, tenderness, itching and redness.
Hydrocortisone Acetate USP	50-03-3	The ester of hydrocortisone. Corticosteroid hormone used to treat inflammatory skin reactions, insect bites and stings, mild to moderate eczema, and hemorrhoids.
Miconazole Nitrate USP	22832-87-7	Imidazole antifungal agent used to treat vaginal yeast infections and skin infections such as ringworm, jock itch, and athlete's foot.
Ketoconazole USP	65277-42-1	Imidazole antifungal agent that works by slowing the growth of fungi. Used to treat fungal skin infections such as ringworm, jock itch, athlete's foot and seborrheic dermatitis.
Benzocaine USP	94-09-7	Local anesthetic commonly used as a topical pain reliever for minor skin irritations, sore throat, sunburn, teething pain, hemorrhoids and many other sources of minor pain.
Lidocaine Base USP	137-58-6	Local anesthetic used topically to relieve itching, burning, and pain from inflammatory skin conditions, injected as a dental anesthetic, or used as a local anesthetic for minor surgery.
Lidocaine HCL USP	6108-05-0	Water soluble form of lidocaine. Local anesthetic used topically to relieve itching, burning, and pain from inflammatory skin conditions, injected as a dental anesthetic, or used as a local anesthetic for minor surgery.
Salicylic Acid USP	69-72-7	A β -hydroxy acid widely used in cosmetic applications for acne and oily skin. It works as a keratolytic, bactericide, and comedolytic agent.
Cetylpyridinium Chloride USP	6004-24-6	Cationic quaternary ammonium compound with antiseptic activity against bacteria and other microorganisms. It is commonly used in applications such as mouthwashes, toothpastes and nasal sprays.

McKinley Resources' "OTC (Over-the-Counter) Active Ingredients" product line consists of high quality active pharmaceutical ingredients for topical applications.

MacPeptides

Key Result(s) :

Multi-fold SPF Boost, Photoprotection doubled anti-oxidant capacity of vitamin C after UV exposure

Normactive botanical extract-based blends provide natural, sustainable bioactive compounds for a range of personal care and cosmetic applications.

DANDELIX PRO™

Function(s): Anti-Dandruff, Anti-Itch, Hair Nourishment
Key result(s): Reduced dandruff by 90% in a 4-week study using 2.5% Dandelix Pro™ shampoo
Application(s): Shampoo, Conditioner, Serum
Recommended use level: 2.5 - 3%
Appearance: Amber to clear red liquid

INCI Name: Water, Glycerin, D-Panthenol, Rosmarinus (Rosemary) leaf extract, Nasturtium officinale (Watercress) extract, Salvia officinalis (Sage) extract, Niacin, Biotin, Potassium Sorbate, Sodium Benzoate, Citric Acid

BIOVOLUME 128™

Function(s): Hair Volumizing, Balanced Hydration, Protective Film
Key result(s): Increased volume 30% after single wash using 2% BIOVOLUME 128™ shampoo
Application(s): Shampoo, Conditioner, Dry Shampoo, Styling Gel
Recommended use level: 2 - 5%
Appearance: Amber to light amber liquid

INCI Name: Water, Glycerin, Tilia tomentosa (Linden) bud extract, Potassium Sorbate, Sodium Benzoate, Citric Acid

BIOVITRIENT 124™

Function(s): Hair Nourishment, Gloss Enhancer
Key result(s): Increased water retention capacity by 40%
Application(s): Shampoo, Conditioner, Dry Shampoo, Styling Gel, Hair Mask, Hair Serum
Recommended use level: 2 - 5%
Appearance: Amber to claret red liquid

INCI Name: Water, Glycerin, Aloe barbadensis (Aloe vera) gel extract, Betula alba (Birch) leaf extract, Chamomilla recutita (Chamomile) extract, Equisetum arvense (Horsetail) extract, Urtica dioica (Nettle) extract, Humulus lupulus (Hops) extract, Arctium lappa (Burdock) extract, Salvia officinalis (Sage) leaf extract, Camellia sinensis (Green Tea) extract, Lawsonia inermis (Henna) extract, Panicum milliaceum (Millet) extract, D-Panthenol, Niacin, Biotin, Potassium Sorbate, Sodium Benzoate, Citric Acid

CHROMAZONE™

Function(s): Hair Color Protection
Key result(s): 50% improved hair color protection compared to commercial benchmark
Application(s): Conditioner, Dry Shampoo, Styling Gel, Hair Mask, Hair Serum
Recommended use level: 1 - 3%
Appearance: Light brown liquid

INCI Name: Water, Lecithin, Punica granatum (Pomegranate) Pericarp Extract, Phenylethyl alcohol, 1,2-Hexanediol

TRI-MEA™

Function(s): Conditioner Booster, Split-End Repair, Anti-Frizz, Heat Protection
Key result(s): Improved cuticle protection compared to cationic conditioning agent; Enhanced gloss and reduced frizz compared to use of silicones alone
Application(s): Shampoo, Conditioner, Serum
Recommended use level: 1 - 4%
Appearance: Pale yellow to yellow liquid

INCI Name: Water, Glycerin, Lecithin, Oleic Acid, Triticum vulgare (Wheat) Germ Extract, Potassium Sorbate, Sodium Benzoate, Citric Acid

NATURAL EXFOLIANTS

In cosmetic applications, natural exfoliants are used when there is a need for mechanical exfoliation of the outer layer of the skin. McKinley's natural exfoliants are specially processed by irradiation and are micro-tested to ensure reduced bioburden.
