2. Add phase B and mix until homogeneous.

# **AFTER SHOWER FACE AND BODY OIL**

*with MacDerma™ BAK*

## **DESCRIPTION**

Our After Shower Face and Body Oil is a lightweight, non-greasy formula that can be applied directly to damp or dry skin. This versatile oil is perfect for post-shower hydration and can be used as a luxurious finishing touch to your skincare routine.

Bakuchiol, a plant-based retinol alternative, helps to improve skin tone and texture to reduce the appearance of fine lines and wrinkles, while Jojoba Oil provides deep hydration and balances the skin's natural oils. Ethylhexyl Olivatate helps to soften and soothe the skin, leaving it feeling silky and supple.

When used in conjunction with our Refining Body Lotion, this oil provides a double dose of Rosehip Oil for even more intense hydration and nourishment.

Discover the ultimate in post-shower pampering with our After Shower Face and Body Oil.
