REFINING BODY LOTION with MacDerma™ BAK

		Glycol (and) Sorbic Acid			
	Peaches and Cream	Fragrance	-	Aroma	0.75
F	50% Sodium Hydroxide	Sodium Hydroxide, Water	-	pH Buffer	Q.S.

PROCEDURE

1. Combine phase A and begin heating to 75–80C
2. Premix Phase B until there are no lumps. Slowly add to phase A while heating to 75–80 C
3. Combine Phase C and heat to 75–80 C degrees. Add phase C to Phase A+B and mix it at high speed for 10 mins
4. Begin cooling batch, add phase D at 50C. Mix until homogeneous.
5. Cool to 40 C and add phase E in the order given.
6. Adjust pH to 5.0–5.5 with phase F and mix until homogeneous. Cool to room temperature.

DESCRIPTION

Indulge your senses with our Refining Body Lotion, a delicate formulation crafted to enhance your skin's natural radiance. Enriched with the power of Bakuchiol, Rosehip Oil and Carrot Oil to deeply moisturize and nourish your skin, leaving it feeling soft, supple, and revitalized. The lightweight texture absorbs quickly, providing long-lasting hydration without feeling greasy. Ideal for all skin types, especially those seeking to improve skin texture, hydration, and overall appearance.

Key Ingredients:

- Bakuchiol: A plant-based retinol alternative that helps to reduce the appearance of fine lines and wrinkles, promoting smoother, younger-looking skin.
- Rosehip Oil: Rich in essential fatty acids and antioxidants, this oil helps to hydrate, soothe, and regenerate skin cells, leaving it soft and supple.
- Carrot Oil: Packed with vitamins A and C, this oil helps to brighten the complexion, reduce the appearance of scars, and promote healthy skin cell turnover.

Usage: Apply a generous amount to clean, dry skin and massage in until fully absorbed. Use daily for optimal results.
